Blackview Appoints Regional Access Networks to Manage Portfolio, Compliance, Testing and Warranty Operations in Australia and New Zealand

Sydney, Australia – Global rugged smartphone and tablet manufacturer Blackview has appointed Regional Access Networks Ltd (RAN) to manage its regulatory compliance, product testing and Portfolio management, and warranty operations in Australia.

The partnership reinforces Blackview's commitment to maintaining high product standards, local regulatory compliance, and enhanced customer support as the brand continues to expand across the Australian market.

Under the new agreement, **Regional Access Networks** will oversee:

- **Device certification and regulatory compliance** to Australian standards, including ACMA, RCM and EESS requirements.
- **Product testing and Portfolio evaluation** to ensure product quality, reliability, and network compatibility.
- **Local warranty management** and customer support, delivering a faster and more responsive service experience for Australian users.

“Appointing Regional Access Networks marks an important step in strengthening our presence and accountability within the Australian market,” said **Akon Lee**, spokesperson for **Blackview**. “RAN’s local expertise and technical capability ensure that every Blackview product sold in Australia meets strict compliance standards and delivers dependable after-sales support.”

With a growing demand for rugged mobile devices across industries such as construction, logistics, mining, and emergency services, the collaboration provides a solid foundation for long-term growth and customer trust in the region.

John Demezieres spokesperson and GM for Regional Access Networks, added:

“We’re proud to partner with Blackview in managing their device portfolio, compliance and support operations in Australia. Our goal is to ensure every device

that reaches Australian customers meets all required standards – and is backed by reliable local support.”

This new partnership underscores both companies’ shared commitment to **quality assurance, regulatory integrity, and customer satisfaction** in one of the world’s most demanding rugged device markets.

About Blackview

Founded in 2013, Blackview is a global leader in rugged smartphones, tablets, and outdoor smart devices. Known for durability, performance, and innovation, Blackview products are trusted in over 80 countries by professionals and adventurers alike.

About Regional Access Networks Ltd (RAN)

Regional Access Networks Ltd is an Australian-based technology distributor and network solutions provider servicing Australia, New Zealand, The Pacific Islands and Japan. RAN manages Blackview’s local operations, ensuring Aussie customers receive local support, service, and warranty coverage.
